

**FOR IMMEDIATE RELEASE**

**Omega Honors 35 Companies for Delivering ‘World-Class’  
Customer Service; 2 Cited for Certification in Employee Training**

*Recipients of Omega’s 2016 NorthFace ScoreBoard Award<sup>SM</sup> consistently exceeded customer expectations. CEMPRO<sup>SM</sup>-certified customer relationship training recipients also recognized.*

**NORTH BILLERICA, Mass.; March 16, 2017** – [Omega Management Group Corp.](#), specialists in driving companies’ revenues and profits by implementing Customer Experience Management (CEM) strategies that increase customer and employee satisfaction, announced today that 35 companies have qualified to receive its [NorthFace ScoreBoard Award<sup>SM</sup>](#) for 2016. Omega also recognized two organizations for meeting the rigorous employee customer relationship training requirements needed for [CEMPRO<sup>SM</sup>](#) certification.

Now in its 17<sup>th</sup> year, the NorthFace ScoreBoard (NFSB) award is presented annually to companies who, as rated solely by their own customers, achieved excellence in customer satisfaction and loyalty during the prior calendar year.

The Certified CEM Professional (CEMPRO) program was established in 2010 to provide best-in-class training curricula for organizations who want to ensure that their customer-facing groups have mastered the skills needed to deliver consistently exceptional customer experiences. CEMPRO is administered by Omega’s strategic employee engagement partner, the [Customer Relationship Management Institute \(CRMI\)](#).

“The NorthFace ScoreBoard Award recognizes organizations who not only offer exemplary customer service, but who also center their existence on a deep commitment to exceeding customer expectations,” said John Alexander Maraganis, president & CEO of Omega. “In 2016, more than 290 projects, many international in scope, were audited from 80 companies based in the U.S. and abroad. The majority of companies are repeat recipients, which shows that, despite the changing economy, implementing a CEM strategy is a reliable, proven way to achieve business success.”

Omega’s methodology measures customer satisfaction and loyalty levels on a 5-point scale (or equivalent) at least four times during the year in such categories as technical support, field service, customer service and account management. The 35 recipients are companies who, based solely on survey responses from their own customers, achieved a 4.0 or above out of a possible 5.0 or equivalent.

“Due to its unique ‘customer-only vote’ criteria, the NorthFace ScoreBoard Award has been viewed from its inception in 2000 as the only objective benchmark for excellence in customer service,” Maraganis said. “Omega defines ultra customer loyalty as customers who continuously purchase from the same company -- even though other choices may offer significantly better pricing – because the company consistently exceeds its customers’ expectations.”

Omega’s research indicates that companies that consistently achieve a 4.0 rating or above have reached the “Loyalty Zone.” This means they have succeeded in locking in profitable, long-term customer relationships, and this significantly raises the bar on their competitors.

Omega will formally present the NFSB and CEMPRO awards to recipients during ceremonies on September 26 at its [SCORE Conference 2017](#), being held at the Seaport Boston Hotel & World Trade Center from September 25-28. Now in its 15<sup>th</sup> year, SCORE remains the only event in the customer service industry focused on CEM best practices to acquire, retain, grow and win-back customers. SCORE speakers also explain how CEM principles can be applied to customer-facing operations such as contact centers, field service, professional services, help desks and technical support. Hundreds of service, support, sales, marketing and human resources executives from the country’s leading firms attend the conference each year.
